

**Dear friends and brethren,**

we always like to think about our last missiontrip back in August. The family conference in Nuwara Eliya of the so-called Switzerland of Sri Lanka was a complete success. Many families from the surrounding villages and towns took part in this camp.

The mainly topic for the seminar was of marriage and family. Families and marriages in Sri Lanka are challenged and need clear biblical teaching and help through the Word of God. God wants to strengthen families in the Body of Christ. Without strong marriages the Christian churches are weak and vulnerable. Many important issues were addressed, among others. "The role of woman and man in a marriage according to the order of God."

Many participants took the opportunity to take counseling. God healed many marriages during these days and gave new impetus to the families. Praise the Lord!

After this family program, we had the opportunity to preach the gospel in another part of the country. Many Hindus became Christians.

A highlight of our mission trip was the baptism of the new brethren,

Sri Lanka is a Buddhist, Hindu-influenced country. But what strikes us especially during the trip, that Hindus and Buddhists are very open to the gospel. **In Sri Lanka the harvest is great, people are ready to hear the good news.**

This is also the reason that we are planning new mission trips again this year. This also requires your support, which is very important for us. Without your help we cannot do this work. Sri Lanka needs Jesus!

You can help to save lost souls. The time is short because JESUS is coming soon! We like to encourage you to take part in God's work.

Thanks again for all prayers and donations. You are part of the spread of the gospel in Sri Lanka.

The GOD Almighty bless you!0
